APPLICANTS' RESPONSE TO "NOTIFICATION OF A DEFECTIVE RESPONSE"

On March 10, 1997, Applicants entered the National Phase in the United States in the above-identified PCT application. Submitted along with the remaining formal papers was a Declaration by the three named inventors. The Office mailed a "Notification of Missing Requirements..." (PTO Form PCT/DO/EO/905) dated April 16, 1997, indicating that the Declaration was defective for failing to identify the citizenship of each inventor. The citizenships of the second and third inventors had inadvertently been omitted. The Declaration met all other legal requirements.

On May 15, 1997, Applicants submitted a Supplemental Declaration which identified the citizenship of the second and third inventors, and which was executed by the second and third inventors. The Supplemental Declaration was not executed by the first inventor. However, the citizenship of the first inventor

had been correctly identified in the original Declaration which, in turn, had been executed by the first inventor. Applicants subsequently received a "Notification of a Defective Response" (Form PCT/DO/EO/916) dated June 25, 1997.

It is respectfully submitted. that the two Declaration together fully satisfy the requirements of 37 C.F.R. § 1.497 and 37 C.F.R. § 1.63. Copies of both Declarations and the "Notification of a Defective Response" are enclosed herewith. In this respect, attention is directed to MPEP § 602.02:

Where neither the original oath or declaration, nor the substitute oath or declaration is complete in itself, but the two taken together give all the required data, no further oath or declaration is needed.

Thus, Applicants believe that the requirements of 37 C.F.R. § 1.497 have been fully complied with, and Applicants respectfully request acknowledgement that the two declarations submitted indeed fulfill the requirements.

Respectfully submitted,

Uwe Witt et al.
